Swanton Welding and Machining Company, Structural Division is your one stop Structural Steel supplier featuring the best technology available. Established in 1956 we have the experience to insure a quality and on time delivery at a competitive price. The Structural Steel Division can fabricate everything from stairs, handrail, caged ladders, to mezzanines, canopies, or an entire building. All of our welders are certified to insure quality welds every time. We have on site painting that will paint your job to your specification and satisfaction. Our detailers are qualified and experienced using the latest software available.
