SWANTON WELDING COMPANY, INC.

Experience, State of the art Technology, Certified Welding and a commitment to quality enables Swanton Welding to meet the fabrication needs of the Industrial, Environmental, Material Handling, Coal, Power, Energy Industries and more.

CUSTOM FABRICATION

Large or small projects in:

- Steel
- Aluminum
- Stainless Steel
- Copper

ENGINEERING AND DESIGN

From concept to completion:

- Industrial Fabrications
- Mechanical Design
- Auto CAD 2004
- Structural Detailing
- Ventilation
- Material Handling

PRODUCTION WELDING AND FABRICATING

Quality and Quantities

- Complete Production Shop
- Maximum Efficiencies
- Quality Assurance and Control

MACHINING CAPABILITIES

- Machine Shop
- Skilled Craftsmen

SPECIALTY EQUIPMENT

- 2 - Trumpf Lasers/ 2 - Flow Waterjets
- CNC Punch
- Metalsoft Fabri/Win CAD/CAM System
- Prototype Designing

SPECIALTY WELDING

For virtually any purpose in a wide range of materials by certified welders.

- GTAW, GMAW, SMAW
- Flux Core
- Steel, Stainless Steel
- Aluminum, Copper, Bronze & Magnesium
- Hard Surfacing, Metallizing
- Brass Braze, Gear Braze
- Tool and Die

ADDITIONAL SERVICES

A complete range of special services with rolling capacity: $\frac{1}{2}$ " x 10 ft. mild steel

$\frac{1}{2}$ " x 5 ft. stainless

- Plasma Plate Burning 10' x 20' Table
- Shearing up to $\frac{3}{4}$ " x 10 ft.
- Press Braking up to $\frac{1}{2}$ " x 12 ft.
- Piece Work and Production
- Production Fabrications
- Robotic Welding
- Pipe Rolling
- Angle Rolling
- CNC Beam Line
- CNC Hole Punching—Iron Workers
- 1 1/16" diameter hole capacity
- Angle Shearing
- Saw Cutting
- Small Fabrications
- Major Industrial System Fabrications
- Radial Drilling
- Mechanical and Structural
- On-site Structural Fabrication and Repair
- Blasting
- Painting
- Conveyor Systems
- Design and Engineering Systems

WHEN YOU NEED IT

- **24-hour Emergency Service**
